Counter Strategies in Global Markets O. Ploetner, 2011-12-06 Developing BRIC markets are changing the business models of traditional western technology leaders. Classic business strategies are no longer suitable for companies attacking abroad whilst defending their market at home. Based on real-life cases, the book evaluates the best new strategies for western companies in technology-based B2B markets.

Families in an Era of Increasing Inequality Paul R. Amato, Alan Booth, Susan M. McHale, Jennifer Van Hook, 2014-10-07 The widening gap between the rich and the poor is turning the American dream into an impossibility for many, particularly children and families. And as the children of low-income families grow to adulthood, they have less access to opportunities and resources than their higher-income peers--and increasing odds of repeating the experiences of their parents. *Families in an Era of Increasing Inequality* probes the complex relations between social inequality and child development and examines possibilities for disrupting these ongoing patterns. Experts across the social sciences track trends in marriage, divorce, employment, and family structure across socioeconomic strata in the U.S. and other developed countries. These family data give readers a deeper understanding of how social class shapes children's paths to adulthood and how those paths continue to diverge over time and into future generations. In addition, contributors critique current policies and programs that have been created to reduce disparities and offer suggestions for more effective alternatives. Among the topics covered: Inequality begins at home: the role of parenting in the diverging destinies of rich and poor children. Inequality begins outside the home: putting parental educational investments into context. How class and family structure impact the transition to adulthood. Dealing with the consequences of changes in family composition. Dynamic models of poverty-related adversity and child outcomes. The diverging destinies of children and what it means for children's lives. As new initiatives are sought to improve the lives of families and children in the short and long term, *Families in an Era of Increasing Inequality* is a key resource for researchers and practitioners in family studies, social work, health, education, sociology, demography, and psychology.

Engineering UAS Applications: Sensor Fusion, Machine Vision and Mission Management Jesús Garcia, José M.

Molina, Juan Pedro Llerena, Daniel Amigo, David Sánchez Pedroche, 2023-07-31 Unmanned aerial systems (UAS) have evolved rapidly in recent years thanks to advances in microelectromechanical components, navigation, perception, and artificial intelligence, allowing for a fast development of autonomy. This book presents general approaches to develop, test, and evaluate critical functions such as navigation, obstacle avoidance and perception, and the capacity to improve performance in real and simulated scenarios. It provides the practical knowledge to install, analyze and evaluate UAS solutions working in real systems; illustrates how to use and configure complete platforms and software tools; and reviews the main enabling technologies applied to develop UAS, possibilities and evaluation methodology. You will get the tools you need to evaluate navigation and obstacle avoidance functions, object detection, and planning and landing alternatives in simulated conditions. The book also provides helpful guidance on the integration of additional sensors (video, weather, meteorological) and communication networks to build IoT solutions. This is an important book for practitioners and researchers interested in integrating advanced techniques in the fields of AI, sensor fusion and mission management, and anyone interest in applying and testing advanced algorithms in UAS platforms.

Surveys in Social Research David de Vaus, 2013-01-11 This work provides advice on how to plan, conduct and analyze social surveys. It emphasizes the links between theory and research, the logic and interpretation of statistics, and the practices of social research. The fifth edition includes a new chapter on ethics and a glossary. It assumes no background in statistical analysis, and gives readers the tools they need to come to grips with this often confusing field.

Tales of a Seventh-Grade Lizard Boy Jonathan Hill,2022-09-27 Tommy isn't an ordinary seventh grader. He and his family are refugees from the center of the earth, lizard people disguised as humans to blend in on the surface. Fitting in at middle school is tough, even if you don't prefer bugs for lunch. At the outcast table, Tommy finds his first human friends: Dung Tran, whose scientist parents have come from Vietnam to investigate the town's mysterious sinkholes, and Scarlett Roberts, the quirky daughter of the new school janitor. The three become inseparable until Tommy, homesick and insecure, uses his powers of disguise in a way that undermines his new friends. To make things right, he will have to risk showing his true face.--

The Story of Life Christopher McKeon,2022-08-01 "Creator, do you have a family?" said my youngest. And he answered! Thus began our healing through awareness with Mina (how we address the human person—God—who built our universe), the archangels, and many others in spirit world. Our explosive conversation over the next 18 hours revealed God, angels, humanity, why we are as we are, and our universe as never before imagined. Spirit mediums Christopher McKeon and his daughters Ayako and El shatter the paradigms and magical thinking handed down to us through history by religion, philosophy, mysticism, and science. Experience, as we did, healing of your trauma, pain, and suffering through gaining awareness of your true reality. Included are ten historical spirit persons who give short testimonies of their experiences to help explain certain aspects of our—your—life reality. You'll never feel the same, or look at the world around you the way you did, as your awareness takes flight from unawareness with new wings on new winds. Be prepared for a story of life like nothing you've ever experienced. Best of all, you'll learn how you, too, can talk to Mina, 'angels,' your spirit family and guides, and willing spirit persons to get your own answers (without having to take ours on faith) as a ground-floor participant in the nascent worldwide energy testing community! For Mina, this book is all about healing your pain and suffering by revealing our personal, and larger, human reality. You'll find it all inside. A chapter summary: Part I is a narrative of our experience discovering energy testing and our shocking meet-up with our 'creator;' Part II describes how you and our universe are infinite and eternal as existence, time, space, and consciousness, including: —an overview regarding our true natural reality: matter, energy, gravity, mass, lightspeed (normal and actual), relativity and the quantum, black holes, the Big Bang, quantum entanglement/tunneling, how the natural universe interacts with the supranatural (spirit) universe; —what is

All Existence of which our universe is a part; —all about consciousness (psyche) and how our physical body interacts with our spirit body; —‘psyche fundamental force’ (Intentionality); —and culture as the individual; Part III describes the origin of humanity and includes: —the birth of humanity; —who and what our creator is —how our universe came to be our home —why human life seems destructive and filled with pain and suffering; Part IV is the real ‘woo-woo’ of the book and includes: —how we exist and live as physicospirit-embodied individuals; —our mind, conscience, PTSD; —killing, abortion, euthanasia, suicide; —lineage and DNA; —what happens at death; —fate, destiny, and free will; —suffering, hope, depression, reincarnation, and the origin of slavery; —happiness, love and hate; —government and society; —evil; —beauty and ugliness; —spirit world; —the chakras and aura as they really are and what they do; —Intentionality; —who and what ‘angels’ really are; —history of Earth’s humanity and radiometric dating; —our physicospirit self; —religion; —what is healing, how to heal; —human freedom; —astral projection, the Akashic Records; —marriage, sex; —animal familiars; —ten historical spirit persons’ testimony: Duke Wen of Zhou, Hitler, Hannibal Gisco, Mio, Mnidho of Nihoa, Tethys, Jesus, Sun-myung Moon, Muhammad, Buddha; Part V teaches you energy testing so you can learn how to talk to Mina (God), ‘angels,’ your spirit family, spirit guides, and any willing spirit person to get your own answers to life.

The Good Intent John Renning Phillips, 2007-11 Phillips chronicles the history of two Fresno families who could trace their bloodlines to nobility in 17th-century Britain.

Macbeth Joseph Pearce, William Shakespeare, 2010-02-05 Arguably the darkest of all Shakespeare’s plays, Macbeth is also one of the most challenging. Is it a work of nihilistic despair, ?a tale told by an idiot, full of sound and fury, signifying nothing?, or is it a cautionary tale warning of the dangers of Machiavellianism and relativism? Does it lead to hell and hopelessness, or does it point to a light beyond the darkness? This critical edition of Shakespeare’s classic psychological drama contains essays by some of today’s leading critics, exploring Macbeth as a morality play, as a history play with contemporary relevance, and as a drama that shows a vision of evil and that grapples with the problem of free will. The Ignatius Critical Editions represent a tradition-oriented alternative to popular textbook series such as the Norton Critical Editions or Oxford World Classics, and are designed to concentrate on traditional readings of the Classics of world literature. Whereas many modern critical editions have succumbed to the fads of modernism and post-modernism, this series will concentrate on tradition-oriented criticism of these great works. Edited by acclaimed literary biographer, Joseph Pearce, the Ignatius Critical Editions will ensure that traditional moral readings of the works are given prominence, instead of the feminist, or deconstructionist readings that often proliferate in other series of ‘critical editions’. As such, they represent a genuine extension of consumer-choice, enabling educators, students and lovers of good literature to buy editions of classic literary works without having to ‘buy into’ the ideologies of secular fundamentalism. The series is particularly aimed at tradition-minded literature professors offering them an alternative for their students. The initial list will have about 15 - 20

titles. The goal is to release three books a season, or six in a year.

Into Adulthood Sherri Oden, Lawrence J. Schweinhart, David P. Weikart, 2000 This report describes the Long-Term Benefits of Head Start (LTBHS) study designed to address questions regarding the long-term effects of the Head Start program on the children and families served. Following the introduction, Chapter 2 presents a review of the research on Head Start, focusing on Head Start Planned Variation research, major integrative reviews demonstrating improved school readiness of Head Start children and the elementary school fade-out effect, and reviews of non-Head Start demonstration models. Chapter 3 describes the LTBHS study's methodology and design, including the makeup of the diverse sample of 622 young adults who participated in Head Start in 1970-71; presents the strategies used to identify and locate study subjects for follow-up; and concludes with an overview of the participant interviews and data collected from school, public assistance, and criminal records. Chapter 4 explains how High/Scope researchers arrived at the LTBHS study's core variables. Chapter 5 summarizes findings on individual characteristics and family background. Chapter 6 summarizes how Head Start children, compared with non-Head Start children, fared into their young adult years. Chapter 7 summarizes the LTBHS study findings and discusses implications for future Head Start development and research. Findings indicated that some groups of study participants were better off as a result of their Head Start participation. Findings also indicated potential benefits for the Model (High/Scope) Head Start group versus the regular Head Start group. Although most findings were not of the expected magnitude or statistical significance, the pattern of findings across most of the educational and life-situational outcome variables had the same direction as the pattern of significant findings obtained in the High/Scope Perry Preschool study and the High/Scope Preschool Curriculum Comparison study. The report's six appendices include resources in locating study participants, definitions for the study's core variables, additional data tables, and additional findings. Four commentaries on Head Start and the LTBHS study conclude the report. (Contains 121 references.) (KB)
